

GYa]bUf`GYf]Yg`
Fall

August 26, 12:00 pm, Virtual

Hee Jeung Oh, Pennsylvania State University | *Polymer Membranes for Environment, Energy, and Health*

September 9, 12:00 pm, Virtual

Julia Kalow, Northwestern University | *Molecular Engineering in Four Dimensions: A Mechanistic Approach to Reprocessable Elastomers*

September 23, 12:00 pm, Virtual

Ann Fornof, 3M | *Ongoing Research in the Electrical Markets Division at 3M and Advice for Students*

October 7, 12:00 pm

Eileen Seo, Arizona State University | *Manipulating Dynamics in Sustainable Macromolecular Materials*

October 21, 12:00 pm

Rafael Verduzco, Rice University | *Molecular Level Engineering of Covalent Organic Frameworks (COFs) for Separations, Adsorbents, and High Strength Films*

November 4, 12:00 pm

Stephen C. Nolet, TPI Composites, Inc. | *Ongoing Research at TPI Composites and Advice for Students*

November 18, 9:00 am, Virtual

Cor Koning, Covestro Resins & Functional Materials | *Powder and Alkyd Coatings from Polycarbonates based on Limoneneoxide and CO₂*

Faculty Meet-up 10:00 am – 10:45 am | Student Meet-up 10:45 am – 11:30 am

December 2, 12:00 pm

Renxuan Xie, Arizona State University | *Rheology Enables Design of Sustainable Materials and Processing*

Seminars will be held in-person unless otherwise noted. All others will be held via Zoom
