

## Technical Review for Final PhD/MS Defense

A Graduate Student enrolled in a Chemistry/Biochemistry PhD/MS Program is required to schedule a Technical Review with his/her Supervisory Committee two to six months prior to the final defense.

The student should prepare a 20 minute presentation on his/her research progress, and discuss any manuscripts in preparation. The committee will question and advise the student to guide him/her in the completion of his/her defense.

This form serves as verification that the Technical Review took place on the date specified. Members attending the review should sign below to verify their participation in the review process and submit the completed form to the Graduate Programs Coordinator.

### Student Information

Name of Student (Please Print)		
Degree/Program (Chemistry PhD, etc)	Date of Review	Time of Review

### Supervisory Committee

Committee Member (Please Print)	Signature
Chair
